

DECLARATION

TO WHOM IT MAY CONCERN

SUBJECT: TECSEDO®SANDWICH PANELS FIRE BEHAVIOUR

We hereby declare that panels

**TECSEDO®BASE micro - TECSEDO®SAFE micro - TECSEDO®SAFE quadro
TECSEDO®SAFE eXtra - TECSEDO®SAFE line**

produced at Taverno plant by TECSEDO S.A., are manufactured utilizing chemical products polyol and isocyanate that expand between two metallic sheets.

According to German standards (DIN 4102), the resulting polyurethane foam is Class B3.

ISO 3582:

extent burnt = 24.7 mm
extinction time = 32.9 sec.

With epiradiator tests at CSTB (Centre Scientific Technic du Batiment), panels produced with this foam obtain Class M2 (according to French standards)
